

200G Network Security Equipment Test Report

Overview

This report outlines the findings from NSS Labs testing of Fortinet FortiGate-200G Enterprise Firewall which measured the firewall's ability to detect and block exploits, malware, and evasions while maintaining stability and minimizing false positives. In Q2 2025, NSS Labs conducted independent evaluations of leading Enterprise Firewall offerings using the Enterprise Firewall Test Methodology v3. Get deeper visibility into your network and see applications, users, and devices before they become threats. Measure the forward error correction pre-error rate and frame loss rate of each channel in the test environment. Brand Compatibility Test Insert the. The FortiGate 200G Series NGFW combines AI-powered security and machine learning to deliver Threat Protection at any scale.
