

# 720odf distribution cabinet termination

## Overview

It provides structured fiber termination, splicing, and patching in a secure, scalable enclosure. Ultra-High Density - Efficiently manages 720 fiber cores in a compact footprint, maximizing space utilization. As part of the system solutions for FTTB/H fiber optic expansion, Langmatz offers a selection of fiber termination devices (ONT) in various sizes and functionalities in its portfolio. These components are integral parts of the fiber optic architecture, as they connect the cable from the network. Belden's DCX Optical Distribution Frame (ODF) Cabinets are fully configurable, front access cabinets that serve as a high-density fiber interconnect or the main building block for a large fiber cross-connect. They protect connections with a lockable DCX CABINET 10-HOUSING 84x36x15, LEFT-RIGHT. Our portfolio of passive components comprises termination and distribution cabinets, joint closures, splitters and aerial cable accessories that cater to various types of telecom and defence networks.
