

Adjusting Plate for Ladder Cable Tray

Overview

The flexible horizontal adjustable splice plates are designed to allow for horizontal direction changes when standard horizontal fittings do not conform. Bonding jumpers are not required. Cable tray (or cable ladder) systems are a popular alternative to electrical conduit systems, as they have an outstanding record for dependable service, design flexibility and cost savings in commercial and industrial applications. These splices require supports within 24" (600mm) on. This publication is intended as a practical guide for the proper and safe* installation of cable ladder systems, cable tray systems, channel support systems and associated supports. As one of the largest manufacturers of Ladder Cable Tray, Cooper B-Line provides a. Welded aluminum I-beam ladder cable trays are a core solution and an iconic design in the cable tray industry. The I-beam design is the most common cable tray construction.
