

# Albania Aggregation Switch 40G

## Overview

The Cisco Meraki MS450 brings powerful high-bandwidth switching to the aggregation layer. The 40G fiber aggregation switch with 100G uplinks adopts the benefits of the cloud with simplified management, reduced complexity, and network-wide visibility. FS 40Gb Switches offer high bandwidth, network virtualization, and redundancy, ensuring efficient deployment for campus core and distributed networks. Suitable for small & medium enterprise core, or large-scale campus network aggregation switch Suitable for SME network core and large-scale network aggregation, 20 x 10GE ports and 4 x 25GE ports for flexible access, 2 x 40GE ports for high-performance uplink The VSU connects to peripherals through. The X695 is a purpose-built 48 x 25Gb SFP28 port switch with 8 x 40/100Gb QSFP28 uplinks designed for high-performance enterprise and aggregation applications. The X695 can support a range of interface speeds, including 1Gb, 10Gb, 25Gb, 40Gb, 50Gb, and 100Gb, all in a compact 1RU form factor. ONIE provides the option to install a preferred Network Operating System, such as Pluribus Netvisor OS, or activate the pre-loaded D-Link OS. 3 and Software-Defined. 40G-ready Aggregation Switch, Achieve greater efficiency and speed with Layer 3 managed switches equipped with 10G uplink. Perfect for demanding environments where performance is key. It is applied in enterprise campus network and easy to deploy Layer3 switching solution that offers enhanced security and 10GE/40GE uplinks, RIP/OSPF/BGP/IS-IS, L2&L3 Multicast, VST/M-LAG.
