

Bridge Industry Platform Launched

Overview

In May 2024, Japan Radio Company launched a new cost-optimized integrated bridge system for small and medium commercial vessels, achieving approximately 30% price reduction through standardized software platforms and commercial off-the-shelf hardware. China Construction Third Engineering Bureau Group Co. recently introduced a new generation lightweight smart construction platform, marking a significant milestone in bridge construction. This platform successfully conducted its first jacking operation at the Libu Yangtze River road-rail. View of the aluminum footbridge connecting sections of the Malampaya offshore oil platform, showcasing corrosion-resistant and lightweight aluminum structures designed for harsh marine environments. An oil rig needed an accommodation platform bridge to link to the. Read the full article here [HOUSTON, April 21, 2026 /PRNewswire/](#) — Bridge Industries today announced that its portfolio company, TransTech Group, through its Cryogenic Technology Resources (CTR) platform, has acquired Allcryo — a Montgomery, Texas-based provider of industrial and cryogenic gas. The U. integrated bridge systems market size was estimated at USD 1,091. 8 million in 2024 and is projected to grow at a CAGR of 3.
