

CCC Certification for Nigerian Distribution Boxes

Overview

The CCC mark is required for both Chinese-manufactured and foreign-imported products; the certification process involves the Guobiao standards. The mandatory products include, among others: Electrical wires and cables Circuit switches, electric devices for protection or connection Low-voltage Electrical Apparatus Low power motors Electric tools Welding machines Household and si. Overview The China Compulsory Certificate mark, commonly known as a CCC Mark, is a compulsory safety mark. Apart from the GB Standard, the implementation rules are the second important component that form the basis of CCC. The implementation rules determine the process of the CCC-Certificatio. The CCC mark is administered by the CNCA (Certification and Accreditation Administration of the People's Republic of China). The (CQC) is designated by CNCA to process C. On April 27, 2009, China announced 13 categories of the security sector products that must conform to the additional authority that was newly bestowed on the CCC (China Compulsory Certificate), and this require.
