

# Cable Management Frame Materials

## Overview

While PVC-U is often the go-to because it is cost-effective, easy to install and versatile, for some applications like; steel, aluminium or Glass, Reinforced Polyester (GRP) can offer additional benefits. ABB saves time and labor with its comprehensive lines of metal framing and cable tray, including the industry's only 100% plated products, our 1 1/2" modular system, and hundreds of accessories to complete any job. The slim profile minimizes visibility. The Cable Management frame fits several types of splice closures on the market. It is mounted to. Cable Support Systems are well designed to provide necessary support for cable trays, cable ladders and trunkings. Cable supports are manufactured according to common standards from high quality raw materials. To select the most suitable product, the requirements of the building users, the environmental.
