

Cost of Multi-hole Horizontal Channel Cable Tray

Overview

TL;DR: Steel wireways offer the lowest upfront cost at \$8-15 per linear foot, aluminum ranges \$12-25 per linear foot with superior corrosion resistance, while stainless steel commands \$20-40 per linear foot but provides maximum durability for harsh environments. With an innovative dove tail splice design, Eaton's B-Line series KwikSplice cable channel is designed to reduce complexity, improve versatility and speed installs. These decisions are relatively simple and can be condensed down to four steps. Material choice T&B channel tray systems are fabricated from a corrosion-resistant metal (low-carbon steel, stainless steel or an aluminum alloy) or from a metal with a corrosion-resistant finish (zinc or epoxy). 2 Why is Conduit So Expensive?

8. 3 What is the Best Way to Save Money?

The selection of the method. Ladder cable trays consist of two longitudinal side members connected by individual transverse members and provide solid side rail protection and system strength with smooth radius fittings and a wide selection of materials and finishes. Materials available: Aluminum, Steel, Steel HDGAF, Stainless.
