

Dfw distribution box

Overview

The DFW series outdoor waterproof cable distribution box is a compact, European-style enclosure for safe and stable power distribution in medium-voltage power networks. It has the feature of fully insulated and fully sealing, which can decrease the fault ratio in the power supply line. It is an important electrical equipment for collecting and branching outdoor cables, divided into ordinary type and switch type, with different sealing. The Fullete DFW-12 is engineered to be the heart of modern electrical distribution networks. Its fully sealed and insulated design ensures unparalleled safety and reliability in the harshest outdoor conditions, while its compact footprint makes it the ideal choice for space-constrained urban and. DFW Outdoor Cable Distribution Box is suitable for outdoor distribution networks with AC 50Hz, rated voltage 12kV, and cable incoming and outgoing lines. It is widely used in power distribution in industrial parks, residential areas, commercial centers, mining areas, airports, railways, ports.
