

EMC Storage Optical Switch

Overview

The Dell EMC S5048-ON switch is an innovative future-ready top-of-rack open networking switch that delivers superior functionality and economics for enterprise, mid-market, tier-2 cloud, and NFV service providers for their demanding computing and Storage traffic environment needs. The S5448F-ON 100/400GbE fixed switch comprises Dell Technologies' latest disaggregated hardware and software data center networking solutions, providing state-of-the-art, high-density 100/400 GbE ports and a broad range of functionality to meet the growing demands of today's data center. The Dell EMC PowerSwitch S4200-ON switch is Dell EMC's latest disaggregated hardware and software data center networking solution, providing a broad range of functionality to meet the growing demands of today's data center environment.
