

EPS Dual Power Distribution Box

Overview

Connects to on-grid inverters (24A), off-grid inverters (24A), utility grid (63A input/25A output), and loads (63A). It contains three 25A components and works at altitudes up to 3000m. Suitable for environments with 4-100% humidity, it meets diverse power distribution needs. The X3-EPS BOX G2. This Solax box allows the AC GRID output and the EPS output to be connected to the same injection point. during a. The EPS-Parallel Box is an automatic switchover box from grid operation to island operation for parallel-connected (master-slave system) Solax hybrid inverters. In the event of a power. PROJY DC & AC Electric Boxes are used for residential, C&I scenario PV plants for combining DC strings, electricity distribution, protecting DC&AC components, Like PV modules/Solar inverter/Battery/DC&AC cable and convenient system maintenance purpose.
