

Fiber Optic Cable Line Maintenance Qualification Certificate

Overview

A Professional Certificate in Fiber Optic Maintenance equips individuals with the essential skills and knowledge to maintain and troubleshoot fiber optic networks. CFOTs have a broad knowledge, skills and abilities (KSAs) in fiber optics that can be applied to almost any job - design, installation, operation - and for almost any application using fiber. Free online self-study programs on many fiber optics and cabling topics applicable to FOA certifications are available free at Fiber U, FOA's online web-based learning website. FOA Reference Books (Available Printed or eBooks) The fiber book is available in Spanish and French as well as English. The Broadband Fiber Installer certification is designed for technicians working in the FTTx field studying the “physical layer” of the OSI model. Open doors to new professional opportunities. The program follows an open enrollment policy and does not impose specific entry requirements.
