

Fire-resistant busbar connector

Overview

Engineered as a specialized busway system for fire emergency power supply, this solution is rigorously tested to maintain uninterrupted operation for over 180 minutes at temperatures exceeding 950°C—surpassing industry fire safety standards (e., IEC 60709) for critical. Busbar trunking systems (E-Line CR Busbar: Cast Resin Busbar) provides the transfer and distribution of electrical current between 630A and 6300A. Explosion proof protected and compatible with E-line KX busbar modules. The "DUROCOMP" synthesized material which has a high. Vertiv™ PowerBar Cast Resin is a 1000 Volt, IP68 rated maintenance free busbar system for use in outdoor applications. The conductor is totally encapsulated in a fire retardant, self-extinguishing and homogenous polymer concrete. For greater protection levels of up to 120 minutes, a fire kit has to be installed on busway through the wall. Our product. Ohory Electric | Leading Manufacturer of Busduct Systems & Cast Resin Busways Ohory Electric is a top-tier busway manufacturer in China, specializing in cast resin busduct systems, fire-resistant busbars, and intelligent power distribution solutions for commercial, industrial, and infrastructure. nVent ERIFLEX Flexibar is a flexible busbar wire replacement solution for low voltage applications available from 27 mm² up to 1200 mm² and 125 A to 2800 A.
