

Guinea SFP Optical Module

Overview

10GBASE-SR SFP+ to LC Optical 10 Gigabit Ethernet Fiber transceiver module , 10GbE Multimode SFP+ (compatible with both 62.5um and 50um LC cables; supports OM1/OM2/OM3/OM4 fiber cables), Duplex LC connector, 850nm, DDM, up to 300m Designed for maximum compatibility with. LINK-PP LS-SM5510-A0C SFP+ Modules 100% Compatible Ciena 12434 10GBASE-ZR optical transceiver designed for 10G data transmission over 100 km long distances. This transceiver module, compliant with MSA SFP+ specifications, uses a single-mode fiber (SMF) with a wavelength of 1550nm. With a maximum. This is a standard SFP optical module. 25Gbps, transmission distance up to 20 km. This product need to use in pair and match up with fiber converter and optical Ethernet switch with SFP port, it can be used in Ethernet, telecom and. An SFP (Small Form-factor Pluggable) is a compact, hot-pluggable transceiver module that allows networking equipment — including switches, routers, servers, and media converters — to support different physical media, such as optical fiber or copper, without replacing the host hardware. This modular. In the era of 5G, AI, and high-speed data centers, optical modules serve as the core bridge for converting electrical signals to optical signals (and vice versa), enabling fast, reliable data transmission across networks.
