

Industrial-grade network cable trays

Overview

Industrial cable tray systems help facilities organize and protect cabling across networks, data centers, and manufacturing floors. From overhead wire mesh trays to surface-mount raceways, we provide the hardware necessary for a scalable and compliant cable management. EAE cable trays and ladders provide high-strength cable protection that protects the cables from external factors. The standard tray length is 3m. 6m can be produced upon request. Strong and durable – Made of hot-dip galvanized steel or stainless steel, suitable for indoor and outdoor applications. Fast installation – Reduce installation costs with quick and efficient. Industrial cable management, enhanced by our UK-manufactured cable trays, delivers optimised safety, maximised efficiency, and increased productivity within your industrial operations. Whatever your configuration, your cables are under control with nVent HOFFMAN! Choose from our wide range of cable carrier sizes and finishes.
