

Layer 2 switch with 6 optical ports

Overview

L2+ managed industrial PoE fiber switch with 4*10/100/1000M RJ45 ports and 2*100/1000M uplink SFP fiber ports. It can support dual DC redundant power supply (Phoenix terminal) input and DIN rail mounting. OVERVIEW48 ports of PoE and PoE+ output. The GWN7806 (P) Series provides 6 SFP+ optical ports and supports up to 216Gbps switching capacity. Advanced Network Control and Management network administrators with advanced network control. PoE devices can be automatically discovered and powered by the GWN7806. Moxa's Layer 2 managed switches feature industrial-grade reliability, network redundancy, and security features based on the IEC 62443 standard. We offer toughened, industry-specific products with multiple industry certifications, such as parts of the EN 50155 standard for rail applications, IEC. The Westermo range of managed layer 2 industrial Ethernet switches are designed for use in harsh environments and allow you to build cost-effective, reliable, secure networks. The managed switch has a working temperature of -40 °C to 85 °C, and has strong durability to adapt to various harsh environments.
