

# Liechtenstein Optical Power Meter Light Source $\pm 0.05$ dB Accuracy

## Overview

□ Up to 240 hours battery life. □ Power level from +26 to -50 dBm with 0. □ Optical Connector □FC (SC, ST, LC connector can be optional) Optical power □ Easy to use. We stock all major equipment types such as Spectrum Analyzers, Signal Generators, Oscilloscopes, Power Meters, Network Analyzers etc from all the major suppliers. The OptoTest OP735 Benchtop Optical Power Meter can be configured with up to 4 channels and a mix of InGaAs, Silicon, and High Power Detectors. This unit is ideal as a compact, stand-alone power meter or used in conjunction with a stabilized light source to measure insertion loss. Designed for high. Dimension OPM series modules include High-Performance series, high-speed series, high-power series, high-sensitivity series and Cost-effective series. All modules are compatible with Dimension ALPHA and OMEGA universal optical test platforms.
