

Manufacturer of handheld light source with dynamic range of 35dB

Overview

The KD Optics VLS35 is a small, easy to use, hand-held visible light source used for testing fibre optic cable installations. on the go with the new europages app. All Companies and suppliers for handheld-light-source-dynamic-range-35db-distributor ✓ Find wholesalers and contact them directly ✓ Leading B2B marketplace ► Find companies now! Discover EXFO's broad range of optical light sources that cater to various testing requirements: singlemode or multimode, polarized or non-polarized, broadband or narrowband, tunable, ITU-wavelength-centered and much more. advanced LED light source for optical borescopes offering excellent illumination and intuitive operation regardless of inspection conditions, due to a specially designed focal lens, one-button control. Battery-operated, high-performance LED light sources feature a universal design so. The lightweight and compact SmartOTDR speeds and optimizes field testing of metro and access networks—with a tailored OTDR interface and automatic analysis that any technician can understand. With SmartOTDR, generic or user-defined setup configurations eliminate setup errors and maintain results. Feature highlights: The JDSU Viavi SmartOTDR E126A is an essential handheld fiber tester with dual-wavelength 1310/1550nm support, a dynamic range of 37/35dB, and integrated tools like a laser source, optical power meter, and VFL. It features automated fiber inspection software, a large 5-inch. In order to support you in setting up your installation or experiment set-ups, we at lightsource. tech have therefore specialized in developing light sources that are easy to integrate into existing systems and deliver the required fail-safe performance over a long lifetime.
