

Mauritius Fiber Optic Cable Technology

Overview

Mauritius will strengthen its broadband connectivity through the deployment of a new fiber optic submarine cable carried by Mauritius Telecom. The telecoms infrastructure for which the incumbent operator has obtained the green light from the government should be completed. We are specialised in the manufacturing of both fibre optic last mile FTTH solutions and copper cable assemblies. The products are utilized across the 'last mile' of datacom, telecom and security applications. Photonics also offers technical advice with regards to fibre optic procurement. Bharat Telecom Ltd, the pioneer of Fibre Optic technology in Mauritius was incorporated in 2010. We launched our products and services in October 2012 using our own fibre cables. 3 million inhabitants, is located in the Indian Ocean.
