

Mds9148 Fiber Optic Switch

Overview

The next-generation Cisco MDS 9148V 64-Gbps 48-Port Fibre Channel Switch (Figure 1) provides high-speed Fibre Channel connectivity for all-flash arrays and high-performance hosts. Along with the higher bandwidth, the Cisco MDS 9148V switch supports ease of configuration and management, detailed and in-depth. The SN6010C 16Gb Fabric Switch (MDS 9148S) is a high-performance, flexible, cost-effective platform providing high-density, line-rate 16-Gbps ports for storage networking deployments in small, medium-sized, and large enterprise environments. The SN6010C switch offers outstanding value by providing. CISCO DS-C9148-32P-K9 Mds 9148 Multilayer Fibre Channel Switch - 8. 48 Gbit/s - 32 Fiber Channel Ports sfp+ - Manageable - Rack-mountable - 1u - Redundant Power Supply. Got the product I needed quickly.
