

Mpolc optical module

Overview

The Cisco ONS-MPO-MPOLC-2= is a 24-fiber MPO/MTP trunk cable module designed for high-density optical networks, specifically targeting hyperscale data centers and 5G transport infrastructures. R&M Netscale 72 MPO-LC modules enable compact, safe, and high-performance breakout from MPO trunk cables to LC-Duplex connections, available in 4- and 6-port versions for OM4, OM5, and SM applications. 3, ISO/IEC 11801, and Telcordia GR-409 standards. Amphenol XPO-LPO optical transceiver delivers next-generation 12.8T Ethernet connectivity with 224 Gb/s per lane. They can be 8 to 144 fibers, in round or flat ribbon. Support method A, B, C and option male and female for MPO connectors. Pin designation is the basis for determining polarity in 10G, 40G, 100G and singlemode assemblies.
