

# Multimode optical module-d

## Overview

SFP1-MM-D is a fiber optic duplex transceiver for 850nm multimode signals. Power Consumption CLASS 1 LASER PRODUCT, IEC/EN 60825-1:2014 Do not look into the ends of the fiber optic cable or SFP module while converters are. Multi-mode optical fiber is a type of optical fiber mostly used for communication over short distances, such as within a building or on a campus. Multi-mode links can be used for data rates up to 800 Gbit/s. Additional features include 850nm transmission and reception wavelengths at networking distances up to 984 feet. when you use the Payboo credit card. Certified Transceiver — Kramer certified, hot-pluggable SFP optical. The 10 Gbps Multi-Mode Optical Module, model UACC-OM-MM-10G-D-2, from Ubiquiti is a high-performance, dual-rate optical transceiver designed for use in building and scaling high-speed network infrastructures.
