

National Standard for Tail Fiber Channels

Overview

The ANSI working group X3T11 defines the Fibre Channel specifications. The Fibre Channel Association has a complete list of the ANSI X3T11 Fibre Channel Standards and draft Standards You can find those via the FCA Fibre Channel Technology pages (click on Standards at the top of that. The INCITS/Fibre Channel Technical Committee is responsible for the development of the Fibre Channel (FC) standards. INCITS/Fibre Channel serves as the parent committee of the INCITS/Fibre. In the world of information technology, companies investing in Fibre Channel (FC) SANs must ensure that they use products and product components that work interchangeably with other products from other companies. Having multiple suppliers is often considered essential for business continuity. Listing of all FOA standards FOA Standard FOA-1: Testing Loss of Installed Fiber Optic Cable Plant, (Insertion Loss, TIA OFSTP-14, OFSTP-7, ISO/IEC 61280, ISO/IEC 14763, etc.
