

Norwegian Retail Core Switch 400G

Overview

A compact 1U 400G switch built for AI clusters, storage fabrics, and high-speed aggregation, featuring four 400G QSFP56-DD ports, dual 10 Gigabit Ethernet, and RouterOS v7. With hot-swap power supplies, robust cooling, and low power consumption, it delivers ultra-high bandwidth, wire-speed. The HPE Networking Comware Switch Series 5965 is a high-performance, high-density top-of-rack (ToR) switch designed for enterprise data centers, cloud service providers, and telco environments. All pricing* displayed is indicative; the reseller sets the final transactional price and may include. 400G - This switch is your next leap forward - a powerful, efficient. FS provides 400G Data Center Switches, free & fast delivery, expert tech support, outstanding warranties. For the most demanding environments the 400G routing and switching platforms provide flexibility and choice for large scale cloud, leaf and spine, routing transformation and hyperscale IO intensive applications. Universal Leaf & Spine Modular Spine High Network Radix Fixed Leaf & Spine for High. Learn how we've joined forces with Siemens Energy to fast-track data centre construction and reduce deployment timelines by up to two years. As data centers continue to evolve, the demand for higher bandwidth and faster network speeds will drive further advancements in the electronic components.
