

Palau Optical Cable Custom Manufacturer

Overview

Belau Submarine Cable Corporation (BSCC) was established as a state-owned enterprise (SOE) by RPPL 9-47 (BSCC Act) on 21st September 2015, to procure, operate, and manage a submarine fiber optic cable on behalf of the Government of Palau. The PC1 cable stretches about 200km connecting Palau to a branching unit of the SEA-US cable. Palau's remote location led to a slow uptake of its information and communications technology. The Palau National Communications Corporation (PNCC) is Palau's national telecommunications operator. We support a comprehensive suite of services including LTE mobile data and voice, fixed-line broadband internet, landline telephone, digital television, and customized ICT solutions, reaching every. Belau Submarine Cable Corporation's project to develop a second international submarine cable for the tiny Pacific Island nation of Palau, PC2, grew out of a realisation that by mid-2018, traffic growth on the first cable (PC1, completed in December 2017) was already testing the limits of what. Koror, Republic of Palau, 8 December 2017 – Belau Submarine Cable Corporation (BSCC; Republic of Palau) and NEC Corporation (NEC; TSE: 6701) announced today that the construction of a new submarine cable linking the Republic of Palau has been completed and is now ready for commercial service.
