

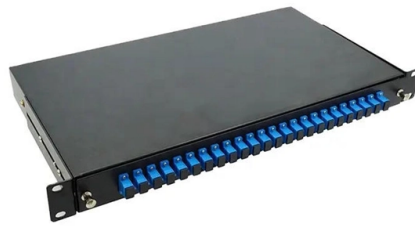

Photovoltaic-specific cable tray accessories

Overview

Various accessories are available for all mounting systems for fixing the module and string cables to a flange such as rails or modules: cable ties in four different lengths, cable tie clips with two different opening sizes, and a cable clip. Solar Cable Tray from MP Husky is designed to meet the unique requirements of the solar industry. Husky Solar. Al-Zn-Mg cable trays are made from cold-rolled steel sheets of various strengths and thicknesses, with a pre-coated steel sheet formed by double-sided hot-dip Al-Zn coating. This material combines the physical protection and high durability of aluminum with the electrochemical protection of zinc. In this guide, I explain the real challenges found in solar projects and show you how to select the correct tray based on materials, load, environment. OBO cable support systems combine the best possible protection with rapid mounting. Our product range comprises closed cable tray, wide span tray and mesh cable tray systems. The covers are secured. o win partnerships. Solar power plants involve extensive electrical networks, including DC cables from photovoltaic panels, AC.
