

# Pre-installed electrical distribution box for gas-filled blocks

## Overview

Pre-installed mounting plates for relays, breakers, and terminal blocks. High reliability under vibration and harsh conditions. EMI shielding for critical signal integrity. Quick maintenance and component replacement. Reduce. The terminal boxes Atex Terbox terminals are pre-assembled in stock, delivery time of 24 hours. We have terminal boxes in three different materials (stainless steel, galvanized steel and GRP polyester) standardized, certified and ready for installation in explosive or corrosive zones 1, 2, 21 and. These explosion-proof enclosures are the spearhead in terms of safety and provide optimum protection for your installed components against the ingress of gas, dust or water. Its characteristic design makes it, a sturdy, anti-corrosion, IP66 waterproof with preassembled terminals and four stopping plug M20. Built with AISI 316 stainless steel and rated IP66/67, they carry ATEX and IECEx approvals for use in both hazardous and non-hazardous areas. WIV DISTRIBUTION BOXES MAXIMUM FLEXIBILITY + MOBILITY. Maximum flexibility + mobility: With our pluggable WIV exhibition distribution boxes you are well placed to benefit.
