

Qatar Fiber Optic Cable Winding Machine

Overview

Explore advanced fiber optic winding machines, engineered for unmatched precision and efficiency in modern production. From high-precision models like FRM-WR-001 to efficient solutions such as QP400, these machines offer sub-micron winding accuracy and can handle up to 50 kilometers. The Winding Controller MCU is a processor-controlled real-time solution for high-precision laying during winding and contains all powerful software functions for unwinding, winding and rewinding. The SUMMI pro software is an HMI user program for touch panel PCs, notebooks and tablets with Windows. BM-Rosendahl is the global supplier of production equipment for lead-acid and lithium-ion batteries. The portfolio ranges from solutions and equipment for enveloping, sleeving, wrapping & stacking, cast-on-strap to the assembly of automotive, motorcycle, industrial, and e-mobility batteries. Installation of Fibre Optic Cables (10mm to 25mm). Windak Coilers provide speed, precision and durability, ensuring top-quality coiling for a variety of cable sizes and types. Windak specializes in innovative Payoffs, Take-ups and Rewind Lines, designed to streamline your cable handling. Our technologies are designed to optimize your production processes and meet the demanding requirements of fiber optic production. Including wire, flat wire, glass fiber, optical fiber, filaments, silk, film, solder, welding wire.
