

Regulations for Sending Electrical Distribution Boxes for Inspection in Building Construction

Overview

This guide gives you a clear, up-to-date overview for 2025: who the regs apply to, what they cover (and don't), how they link to Building Regulations and the Electricity at Work Regulations, the current 18th Edition with recent changes, and the essentials on RCDs . This guide gives you a clear, up-to-date overview for 2025: who the regs apply to, what they cover (and don't), how they link to Building Regulations and the Electricity at Work Regulations, the current 18th Edition with recent changes, and the essentials on RCDs . This guidance is aimed at those responsible for planning and subsequent management, and those who control the installation and use of electrical systems and equipment on construction sites. You'll. What qualifications do I need to carry out inspection and testing?

The IET Wiring Regulations does not provide requirements for specific qualifications for electricians, and the IET cannot advise the exact qualifications which are required. Carrying out an inspection of electrical installations is. Since April 2023, the Building Safety Regulator has a duty under the Building Safety Act 2022 to keep under review the safety and standards of all buildings in England, which includes advising government on updates to the Approved Documents. Although the greatest of care has been taken in the compilation and preparation of this document, GTC respectfully accepts no responsibility for.
