

Remote Switching of Intelligent Power Distribution Cabinet

Overview

A network management controller (NMC) built into the PDUs provides local and remote metering information for the complete power and energy drawn and at the individual outlet level. Unlike basic PDUs, you don't need to be physically present in the facility. PDU. The Liebert® RXV remote power distribution cabinet provides dense power distribution in a small footprint, with up to 400 Amp inputs and 84 poles in a single 24"x12" panelboard. Designed to simplify deployment and take stress out of power distribution, this intelligent PDU helps reclaim valuable hours. Whether that means speeding up Saturday installs or focusing on. Intelligent PDUs and Intelligent Power Management play an important role within the Data Centre / Enterprise IT environments. Together, they enable organizations to.
