

Simple Distribution Box with Metal Casing

Overview

Flush-mounted solutions with white metal frame and door, designed for professional electrical panel installations. Capacity from 14 to 56 modules: Multiple sizes to fit any project. IP40 and IK07 protection: Resistant to impact, dust and moisture. They play a vital role in safeguarding electronic and mechanical systems by protecting against physical damage, thermal changes, and electromagnetic interference. Removable metal frame: Easy to install and access. Distribution boxes, often called breaker boxes or fuse boxes, are basically the central hub where electricity from your main supply gets divided into different circuits. Material options include diecast aluminum enclosures, extruded aluminum enclosures, carbon steel enclosures, or stainless steel enclosures.
