

Venezuela Explosion-proof Distribution Box Junction Box

Overview

Junction boxes JB2221-544-2X (11-59) are designed for power distribution during installation, repair and upgrade of power cables and utility networks in explosion hazard areas. The box is mounted onto a nearby metal structure. With a wide range of enclosure materials, sizes, ambient temperature ranges, and customizable configurations, these solutions can. Atexdelvalle offers world-class explosion-protected solutions guaranteeing highest quality and performance with no compromise. We offer bespoke, custom-made terminal boxes and terminal box combinations, as well as standard products with short delivery times. Our products are certified for installation technologies all over the. Equipment for explosive GAS and DUST atmospheres, having a “high” level of protection, which is not a source of ignition in normal operation or during expected malfunctions. Ideal solutions for efficient operation and monitoring of multiple electrical circuits and machinery in explosion hazardous. These explosion proof junction boxes / terminal boxes, plugs, sockets & connectors are for use in explosive atmospheres in compliance with the ATEX 94/9/EC Directive and IEC Supermec ATEX Junction Box & Enclosures are designed to satisfy most of our clients' requirements for CONTROL explosion-proof and flameproof enclosures.
