Electricity sector in Venezuela

The electricity sector in Venezuela is heavily dependent on hydroelectricity, which accounted for 64% of the nation's electricity generation in 2021. Besides hydroelectric power, Venezuela also relies on natural gas and petroleum, contributing 25% and 11%, respectively, to the total electricity output that year. The country operates six hydroelectric plants, totaling a capacity of 16,010 megawatts (MW), with the Central Hidroeléctrica Guri in Orinoco being the most significant, accounting for 64% of Venezuela's hydroelect
