

Vertical Support for Channel Cable Trays

Overview

This Vertical Support elevates the cable tray off the floor to allow for free air flow. Easily snaps on to pedestal supports. OBO BETTERMANN has offered products and solutions for electrical installation for over 100 years. With our many years of experience, we are one of the leading manufacturers in this field. Available for all cable carrier types. Standard lengths 2000 / 3000 mm, special lengths in 1 mm sections. Subject to change without notice. Material choice T&B channel tray systems are fabricated from a corrosion-resistant metal. This publication is intended as a practical guide for the proper and safe* installation of cable ladder systems, cable tray systems, channel support systems and associated supports. Cable ladder systems and cable tray systems shall be manufactured in accordance with BS EN 61537, channel support. Yes, wire mesh baskets and cable trays can be installed vertically or overhead, and they absolutely should be in many cabling projects.
